1. Project Overview & Team Structure

Avyakta is a cultural multi-domain club that brings together students passionate about performing arts, design, technology, event management, and more. This document defines the complete visual and functional design of the Avyakta website — a digital home that mirrors the club's spirit: vibrant, inclusive, rooted in Indian culture, and welcoming to new talent.

Team	Members	Responsibilities
Team 1 Core & Structure	Teja, Arrham, Preksha	Layout (Navbar, Footer, routing), Home Page, About Page, Admin Dashboard, Base Styling
Team 2 Recruitment & Data	Suhith, Vrushabendra, Navyashree	Recruitment form UI, Form validation, Supabase integration, Data storage & schema
Team 3 Events, Gallery & UX	Naman, Akhil, Nikita	Events page, Event detail page, Gallery, Animations & responsiveness, History page, Members page, Registrations

2. Design Philosophy & Visual Identity

The Avyakta website is designed to feel like stepping into a richly decorated cultural space — the warmth of a festive evening, the elegance of Indian craftsmanship, and the energy of a college club that is actively doing things. Every design decision is governed by three principles:

- **Culturally Rooted:** Indian motifs, patterns, and colour sensibilities inform every element without being cliché or overwhelming.
- **Energetically Welcoming:** Animations, scroll interactions, and layout guide visitors toward participation — joining, registering, volunteering.
- **Functionally Clean:** Ornament never obstructs usability. Information hierarchy is always clear.

The gold-and-emerald logo is the anchor. The website extends that palette into bronze, charcoal, deep crimson, and muted warm whites — reminiscent of silk textiles, temple stone, and festival lights. Geometric rangoli-inspired dividers, paisley micro-patterns in subtle backgrounds, and mandala-style loading spinners add cultural texture without being kitschy.

3. Colour Palette & Typography

Swatch	Name	Primary Usage
	Bronze Gold #92791B	Primary headings, CTAs, borders, accents
	Emerald Green #1B5E3B	Secondary headings, nav highlights, success states
	Charcoal Black #1C1C1C	Body text, footer background, overlay darks
	Dull Olive Yellow #737955	Subheadings, captions, secondary labels
	Deep Crimson #8B1A1A	Alerts, tags, cultural accent elements
	Muted Warm White #F5F0E8	Page backgrounds, card surfaces
	Gold Light #C9A84C	Hover glows, icon highlights, divider lines

Typography

Role	Font & Usage
Primary Display	Cormorant Garamond (serif) — headings, club name, event titles
Body / UI	Inter or DM Sans (sans-serif) — paragraphs, labels, form fields
Accent / Quote	Playfair Display Italic — pull quotes, member bios, taglines
Code / Mono	JetBrains Mono — admin dashboard data, form field placeholders
Hindi Captions	Noto Sans Devanagari — optional cultural text, page ornaments

Note: All fonts should be loaded via Google Fonts with display=swap for performance.

4. Indian Design Elements & Motifs

Indian design influence should feel woven in — not pasted on. The following elements are to be implemented as SVG/CSS components, ensuring scalability and performance.

Element	Implementation Guidance
Rangoli Dividers	SVG geometric star/petal dividers (6–8 points) between page sections. Render in bronze with a subtle glow.
Mandala Loader	Full-screen mandala SVG that rotates and fades out as the page loads. Gold on charcoal. Appears on the home hero section.
Paisley Background	Low-opacity (#92791B at 4–6% opacity) tiled paisley SVG pattern on section backgrounds. Subtle enough to be a texture, not a distraction.
Jaali (Lattice) Overlay	Geometric jali-pattern overlay on hero image and gallery thumbnails on hover — CSS clip-path or SVG mask.
Diya Icon Set	Custom diya/lamp icons for domain labels in the recruitment section and event categories.
Kolam Border Animation	On the home hero section, a thin kolam-style animated border traces around the frame on page load.
Festival Colour Particles	Floating coloured particles (holi/rangoli colours) on the events page hero — subtle, performant CSS/JS animation.
Fabric Texture Cards	Card components use a faint silk/ikat texture overlay (CSS background-blend-mode) to evoke Indian textile motifs.

5. Navigation & Layout Architecture

Global Layout

The website uses a full-width layout with a fixed top navbar and a rich footer. Content sections are full-width with max-width containers (1280px) centred inside. Vertical rhythm is governed by an 8px grid.

Navbar Design

The navbar is initially transparent over the hero, transitioning to charcoal with bronze border-bottom on scroll. The Avyakta logo (gold + emerald) sits left. Navigation links animate in from the top with a staggered fade + slide on open.

Nav Links: Gallery · Events · Registrations / Volunteer · Recruitment · Members

On mobile, the hamburger icon triggers a full-screen slide-over menu with a rangoli motif background and large, spaced links. The menu close button is an animated X.

Note: The navbar must NOT include any link to the hidden admin dashboard.

6. Page-by-Page Design Specification

6.1 Home Page

The home page is the club's handshake with every visitor. It should immediately communicate culture, energy, and openness.

Section	Design Details
Hero Section	Full-viewport height. Background: cinematic club photo with charcoal overlay + kolam border animation.
Announcements Popup / Banner	A dismissible floating card (bottom-right on desktop, bottom sheet on mobile) that shows active announcements.
About Snippet	Two-column: left is 3–4 lines about Avyakta; right is a decorative rangoli-framed image or club stats (e.g., "10 Years of Impact").
IRA Mention	A single subtle line below the about snippet: 'A proud branch of Club IRA' — 'Club IRA' is a hyperlink to the parent organization.
Club Timeline / History Scroll	Horizontal scroll section (or vertical alternating on mobile). Each milestone card has: year, event/achievement, and a small image.
Domains Preview	A row of domain cards (Tech, Design, EVM, ...) with diya icons, each in a jali-overlay card. Links to their respective pages.
Upcoming Events Teaser	3 upcoming event cards in a horizontal scroll. Each card: event poster image, name, date, and 'View Details' link.

6.2 Navbar

Property	Specification
Behaviour	Fixed position. Transparent on hero, solid charcoal (#1C1C1C) after 80px scroll.
Logo	SVG logo (gold + emerald). Left-aligned. Links to home.
Links	Uppercase, letter-spacing 0.1em, 13px, muted white. Active link gets BRONZE underline.
Open Animation	Staggered fadeInDown per link, 60ms delay between each.
Mobile	Hamburger → full-screen overlay with rangoli background pattern.
Hover State	Link colour transitions to GOLD_LIGHT with a 0.2s ease.

6.3 Footer

Element	Specification
Background	Charcoal (#1C1C1C) with subtle paisley SVG overlay at 5% opacity.
Logo	Avyakta logo centred at top of footer, 48px height.
Contact Links	Email, Instagram, LinkedIn, WhatsApp — icon buttons with hover glow in BRONZE.
Quick Links	About, Events, Gallery, Recruitment, Members.
IRA Credit	Very small italic line: 'A branch of Club IRA' with hyperlink.
Copyright	Bottom bar in charcoal-darker with muted white 8px text.

6.4 About / What is Avyakta Page

Section	Details
Hero	Full-width image banner with BRONZE gradient overlay. Page title 'About Avyakta' in large serif.
Mission & Vision	Two cards side-by-side. Crimson left border accent. Body text in BODY style.
Domains Section	Icon grid of all domains with short descriptions.
Why Join	3-column card row: 'Grow', 'Create', 'Belong' with diya icons.
Faculty Advisors Preview	Small card strip. Links to full Members page.
CTA	Prominent 'Apply Now' button → Recruitment page.

6.5 About IRA Page

A single-page informational view about Club IRA — the parent club. Design is intentionally subdued (uses same theme but lighter section treatments) to make clear this is a reference page, not a primary Avyakta page. Contains: IRA logo, brief description, link to IRA's official presence, and a 'Back to Avyakta' breadcrumb.

6.6 Recruitment Page

This page serves dual purpose: inspire applicants with the club's ethos and collect their application.

Element	Details
Ethics Statement	One impactful paragraph about the spirit of joining a cultural multi-domain club — written in Playfair D
Domain Cards	One card per domain (Tech, Design, EVM, + others). Each has: diya icon, domain name, 2-line descr
Form — Personal Info	Fields: Full Name, SRN, Branch, Class, Section. Clean floating-label inputs with BRONZE focus bord
Form — Domain Interest	Multi-select pill buttons (not a dropdown) for domain preference.
Form — Experience	Textarea: 'Tell us about your relevant experience'. 300 character soft limit with live counter.
Form — Links Section	Dynamic link fields. 'Add Link +' button appends a row: [Dropdown: Portfolio / GitHub / LinkedIn / You
Submit	EMERALD button with diya icon. On submission: animated success state with 'Namaste ■' message
Validation	Real-time inline validation. SRN format check. URL validity check. Required fields highlighted in crim

6.7 Events Page

Element	Details
Layout	Horizontal scroll carousel of event cards on desktop; vertical stack on mobile.
Categories	Filter tabs: All · Upcoming · Ongoing · Past. Active tab has BRONZE underline.
Event Card	Aspect ratio 4:3. Background: event poster. Overlay: gradient from transparent to charcoal. Text: eve
Scroll Behaviour	Desktop: mouse wheel triggers horizontal scroll within the section. Scroll indicator dots below.
Past Events	Cards display a 'View Gallery →' badge instead of a Register button.
Upcoming/Ongoing	Cards display a 'Register / Volunteer →' badge.
Animation	Cards animate in with staggered slide-up on page load. Festival particle effect in the page hero.

6.8 Event Detail Page

Element	Details
Route	/events/[event-slug]
Hero	Full-width event poster with charcoal gradient. Event name in large Cormorant Garamond.
Details Section	Icon-label pairs: ■ Date & Time ■ Venue ■ Category ■ Capacity.
About the Event	Rich text description. Can include formatted paragraphs from Supabase.
Coordinators	Small avatar + name cards of event coordinators.
CTA for Future/Current Events	Two buttons: 'Register as Participant' + 'Volunteer for this Event'. Both route to Registrations page wi
CTA for Past Events	'View Gallery →' button only. Routes to Gallery filtered to that event.
Related Events	Horizontal strip of 3 related event cards at page bottom.

6.9 Gallery Page

Element	Details
Layout	Left: vertical list of events (scrollable). Right: masonry grid of that event's images.
Event List	Each item: event name + year + thumbnail. Active event highlighted with BRONZE left border.
Image Grid	Masonry layout. Hover: jaali overlay + image name caption slides up from bottom.
Lightbox	Click any image → full-screen lightbox with left/right navigation, close (X), and keyboard arrow suppo
Load More	Pagination via 'Load More' button or infinite scroll (preference: Load More for control).
Mobile	Single column scroll. Tap image → lightbox.

6.10 Members Page

The Members page is a living tribute to everyone who built Avyakta. It is divided into clearly labelled sections:

Element	Details
Sections	Founders · Faculty Advisors · Previous Heads · Previous Members · Current Core Team
Photo Cards	Square-ish image with rounded corners. Name + designation below. On hover: bronze border glow +
Click → Popup	Clicking a card opens a centred modal overlay (same page, no navigation). Modal contains: larger ph
Modal Design	Charcoal background, BRONZE border, rangoli corner ornaments as SVG. X button: circle icon, hove
Animation	Modal fades + scales in (scale 0.9 → 1, opacity 0 → 1). Cards stagger in on scroll.
Data Source	Supabase 'members' table. Each record: name, designation, section (founders/advisors/etc.), photo_

6.11 Registrations / Volunteer Page

This page mirrors the Recruitment page structure but is focused on event participation and volunteering.

Element	Details
Event Selector	Dropdown or pill selector for which event the user is registering/volunteering for.
Role Toggle	Pill toggle: 'Participant' / 'Volunteer'. Switches the form fields accordingly.
Common Fields	Name, SRN, Branch, Class, Section, Phone Number, Email.
Participant Fields	Dietary needs (if event has meals), team name (if team event).
Volunteer Fields	Domain of help (logistics, decor, tech, etc.), prior volunteer experience (textarea).
Links Section	Same dynamic link-field component as Recruitment page.
Submit	Same EMERALD CTA with confirmation animation.

6.12 History / Timeline Page

Element	Details
Layout	Vertical alternating timeline. Central vertical BRONZE line. Cards alternate left/right on desktop; stack
Card Content	Year (large, BRONZE), milestone title, 1–2 line description, optional small image.
Scroll Animation	Each card slides in from its respective side on scroll (Intersection Observer).
First Entry	Always: 'Founded — [Year]' with founder names. Styled as the anchor card.
IRA Mention	One entry: 'Established as a branch of Club IRA' — subtle crimson tag.

7. Admin & Domain-Head Dashboard System

7.1 Architecture Overview

The dashboard system operates at a hidden URL not linked anywhere on the public website. All authentication happens on this page. Two tiers of access exist: Admin (full) and Domain Head (scoped to their domain's recruit data).

7.2 Hidden URL

```
/avyakta-control-[randomhash]
```

The URL segment is a random alphanumeric hash (e.g. /avyakta-control-x7k2m9p). It is shared only verbally or via secure message to authorized personnel. There is NO link to this route from any public-facing page, nav, footer, or sitemap.

7.3 Login System

Aspect	Details
Login Page Design	Dark charcoal fullscreen. Avyakta logo centred. Single card: email + password fields. BRONZE 'Enter' key
Admin Login	One superuser account. Always active. Full dashboard access.
Domain Head Logins	Multiple accounts, one per domain (e.g., design-head@avyakta, tech-head@avyakta). Accounts are
Session	JWT-based session via Supabase Auth. Session expires after 8 hours of inactivity.
Failed Attempts	After 5 failed attempts, IP is soft-blocked for 15 minutes (Supabase rate limiting).

7.4 Admin Dashboard (Full Access)

Module	Details
Overview Cards	Total applicants, events this semester, gallery images, active members.
Announcements Manager	Create/edit/delete announcements shown in home page popup. Fields: title, body, type (recruitment/
Recruitment Overview	Table of all applicants across all domains. Filter by domain, status. Export to CSV.
Events Manager	Create/edit/delete events. Fields: name, date, venue, description, poster image upload, category.
Gallery Manager	Upload images per event. Batch upload supported. Images stored in Supabase Storage.
Members Manager	Add/edit/remove members per section (founders, advisors, etc.). Photo upload.
User Manager	Enable/disable domain head accounts. Reset passwords.

7.5 Domain Head Dashboard (Scoped Access)

Feature	Details
View	Table of all applicants who selected their domain. Columns: Name, SRN, Branch, Experience, Links,
Interview Scheduling	Per applicant, domain head can set: interview date, time, mode (online/offline), venue/link, and a pers
Status Update	Dropdown per applicant: Pending → Shortlisted → Interviewed → Selected → Rejected.
Cannot Access	No other domain's data. No events, gallery, or member management. No announcement editing.

Availability	Accounts are inactive outside recruitment season. Login returns 'Access not available at this time' me
--------------	--

8. Supabase Data Architecture

All dynamic data is stored in Supabase (PostgreSQL). The following tables define the schema. Supabase Storage is used for images (gallery, member photos, event posters).

Table Name	Key Columns
announcements	id, title, body, type (enum: recruitment/event/general), is_active, expires_at, created_at
events	id, slug, name, description (rich text), date, end_date, venue, category, poster_url, is_past, created_at
recruitment_applications	id, name, srn, branch, class, section, domain (array), experience, links (jsonb: [{type, url}]), status (enum), interview_slot (jsonb), created_at
registrations	id, event_id (FK→events), role (participant/volunteer), name, srn, branch, class, section, phone, email, extra_fields (jsonb), created_at
gallery_images	id, event_id (FK→events), image_url, caption, display_order, uploaded_at
members	id, name, designation, section (enum: founders/advisors/prev_heads/prev_members/current_core), photo_url, quote, year, display_order
history_milestones	id, year, title, description, image_url, display_order
domain_heads	id, domain, supabase_user_id (FK→auth.users), is_active

Row-Level Security (RLS)

- Public (anon) can READ: events, gallery_images, history_milestones, members, announcements (where is_active = true).
- Public can INSERT INTO: recruitment_applications, registrations.
- Domain heads can SELECT recruitment_applications WHERE domain = their domain only (enforced via RLS policy referencing domain_heads table).
- Admin (service role key, never exposed to frontend) has full access via server-side API routes.

9. Animations & Interaction Design

Interaction	Specification
Page Load	Mandala SVG loader (rotate + fade out). Only on cold load.
Hero Kolam	CSS stroke-dashoffset animation traces kolam border on hero section load. Duration: 2.4s ease-in-out.
Scroll Reveal	Intersection Observer triggers 'slide-up + fade in' on all cards and timeline entries. Threshold: 0.15. Offset: 10px.
Navbar Transition	Background + border transition on scroll (requestAnimationFrame, not scroll event).
Member Card Hover	scale(1.04) + box-shadow BRONZE glow + CSS rotateY(3deg) tilt. Transition: 0.25s ease.
Member Modal	scale(0.9→1) + opacity(0→1). Backdrop: blur(6px) + rgba(28,28,28,0.85). Duration: 0.3s.
Event Card Hover	scale(1.03) + jaali SVG overlay fades in (opacity 0→0.6). Duration: 0.3s.
Gallery Lightbox	Fade in. Arrow navigation with slide transition (translateX). Keyboard accessible.
Form Submit Success	Checkmark draw animation + 'Namaste 🙏' text fade-in.
Festival Particles	CSS/canvas floating coloured dots on Events page hero. Max 40 particles, requestAnimationFrame loop.
Horizontal Scroll Events	Snap-scroll on X axis. Scroll indicator dots with active state.
Announcement Popup	Slide up from bottom-right. Auto-dismiss after 8s with countdown indicator.

Note: All animations must respect prefers-reduced-motion: reduce CSS media query. If set, replace all transitions with instant state changes.

10. Responsiveness & Accessibility

Area	Specification
Breakpoints	Mobile: 0–640px · Tablet: 641–1024px · Desktop: 1025px+
Mobile Navbar	Full-screen overlay menu. Touch-friendly link targets (min 44px height).
Events Scroll	Horizontal on desktop; vertical card stack on mobile.
Gallery	3-col masonry on desktop; 2-col on tablet; 1-col on mobile.
Members Grid	4-col on desktop; 2-col on tablet; 2-col on mobile.
Forms	Full-width single-column on mobile. Side-by-side pairs on desktop.
Images	All images use lazy loading (loading='lazy'). srcSet for responsive images.
Accessibility	All interactive elements keyboard-navigable. ARIA labels on icon buttons. Color contrast ratios meet WCAG 2.1 AA.
SEO	Semantic HTML (h1→h6, nav, main, article, footer). Open Graph meta tags per page. Sitemap.xml (e.g., /sitemap.xml).

11. Tech Stack Summary

Layer	Choice & Notes
Framework	Next.js 14+ (App Router) — SSR for public pages, client components for interactive UI
Styling	Tailwind CSS with custom theme tokens for the Avyakta palette
Animations	Framer Motion (complex scroll + modal animations) + CSS transitions (simple hovers)
Backend / DB	Supabase (PostgreSQL + Auth + Storage + Realtime)
Forms	React Hook Form + Zod for validation
Icons	Lucide React + custom SVG icon set (diya, rangoli, mandala)
Fonts	Next/font with Google Fonts (Cormorant Garamond, Inter, Playfair Display)
Image Hosting	Supabase Storage (with CDN). next/image for optimised delivery
Deployment	Vercel (recommended). Environment variables managed in Vercel dashboard
Auth	Supabase Auth (email+password). Server-side session check for dashboard route

12. Development Team Responsibilities

Team 1 — Core Pages & Structure (Teja, Arrham, Preksha)

Task	Details
Layout Shell	Create _layout.tsx with Navbar + Footer. Set up route structure.
Tailwind Config	Configure custom colours, fonts, spacing tokens per this document.
Navbar	Implement scroll-aware navbar, staggered link animation, mobile overlay menu.
Footer	Logo, contact icons, quick links, IRA credit.
Home Page	All 7 home sections including announcement popup logic.
About Page	Static page with all sections. Fetch Faculty Advisors preview from Supabase.
About IRA Page	Static informational page.
Admin Dashboard	Full admin view — all management modules. Hidden route + auth guard.
Indian Motif SVGs	Create/source and integrate rangoli dividers, paisley bg, mandala loader.

Team 2 — Recruitment & Data Flow (Suhith, Vrushabendra, Navyashree)

Task	Details
Recruitment Page	Ethics section, domain cards, full form with dynamic link fields.
Form Validation	React Hook Form + Zod schema. Inline error messages. SRN + URL validation.
Supabase Setup	Create all tables (schema per Section 8). Configure RLS policies.
Supabase Auth	Set up admin and domain head user accounts. Account enable/disable flow.

API Routes	Next.js API routes for form submission (server-side insert, avoids exposing keys).
Domain Head Dashboard	Scoped dashboard view — applicant table, status update, interview slot setter.
Registrations Page	Volunteer/register form with event selector. Same link-field component as recruitment.
Data Exports	CSV export functionality for admin recruitment overview.

Team 3 — Events, Gallery & UI Enhancement (Naman, Akhil, Nikita)

Task	Details
Events Page	Horizontal snap-scroll carousel, filter tabs, event cards with jaali hover.
Event Detail Page	Dynamic route /events/[slug]. Full layout per Section 6.8.
Gallery Page	Event list + masonry image grid + lightbox. Supabase Storage integration.
Members Page	All member sections, photo cards, hover animations, modal popup.
History / Timeline Page	Alternating scroll timeline. Intersection Observer animations.
Animations	Framer Motion setup, scroll reveals, hero kolam animation, festival particles.
Responsiveness	Ensure all pages meet breakpoint specs. Test on real devices.
Accessibility Audit	Tab order, ARIA labels, contrast check, reduced-motion support.

Design Principles Reminder

Every pixel of the Avyakta website should feel like an invitation. Indian culture is not a decoration — it is the foundation. Let the colours breathe, let the animations delight, and let the content speak for a club that is genuinely worth joining.
